## WESF PROJECT MEETING MINUTES

Project Managers Meeting  
825 Jadwin/Room 244B  
Hanford, Washington

December 4, 2003

- I. Approval of October 30, 2003 WESF Project Meeting Minutes (Ecology/DOE-RL/FH)
- II. Operational Status (Fen Simmons FH)
  - Fen Simmons reported that the inner capsule movement test, which is an interim status requirement, was completed.
- III. Project Specific Issues
  - A. Cs/Sr project status  
Lori Fritz (FH) reported that DOE has approved a reduced funding level for FY04 at 1.5 million dollars for the cesium/strontium project and \$700,000 for the following years. The intent is to begin startup for moving the capsules around 2007 - 2008, which is contingent upon funding. The technical team has been reconvened and its first order of business will be to prepare a schedule.
  - B. Part B Permit Application status  
The parties will proceed with drafting of the Part B permit. The letter of intent (LOI) notifying the vendor of the design/fabrication contract order will be issued the week of 12/15/03. The draft Part B will be submitted to Ecology by early April 2004.
  - C. M-092-01 status  
Fen Simmons stated that there was no change in status.
- IV. General Discussions
  - A. There were no topics for general discussion.
- V. Status of Actions (report attached)
  - A. Jeannette Hyatt proposed a change in the description of the action item status to include suspend, defer, and complete. After a brief discussion, the parties agreed to incorporate the new definitions. The suspended and deferred actions will still be listed at the bottom of the action item report.
  - B. 930 -- Funding has been identified for this project. Regarding the SEPA checklist, Fen Simmons will develop a schedule for the supplemental analysis for presentation to Ecology.
  - C. 933 -- It was agreed to defer this action until 2005.
  - D. 973 -- A meeting was scheduled with Ecology for January 15, 2004 to discuss the Part B permit options.
